PREFACE

Residents' Handbook

SEL management presents Residents Handbook, a compilation of current rules and regulations, for ready reference and guidance of the residents. The first edition of the Handbook was issued in April 2017. Living in multi-storied apartments requires a high degree of mutual respect, civic sense, co-operation and behaviour to ensure tension free existence, particularly in the use of common areas and neighbourhood behaviour. Towards this objective, the SEL has prepared the Handbook for all residents to follow.

SEL operational desks (accounts, administration, helpdesk, club and maintenance) are provided with a hard copy of the Handbook. Residents interested to refer to the printed copy can peruse the hardcopy available with them. While the softcopy is free of cost, residents wanting to obtain a hard copy can get it from the Administration Section on payment of Rs.350 per copy.

The rules are subject to review and can be modified by the SEL management anytime if so needed. Residents are welcome to forward their suggestions to CEM by email under the caption 'Residents' Handbook'.

1. INTRODUCTION

The Seawoods Estates Ltd (SEL), popularly known as NRI Complex, was conceived by City and Industrial Development Corporation of Maharashtra Limited (CIDCO) in the early nineties, as an exclusive residential housing complex for the Non-resident Indians (NRI's). Strategically located, by the side of Thane Creek that joins the Arabian Sea, the Complex has a unique and panoramic view of the sea as well as the mountain ranges around.

Designed by Hafeez Contractor, one of the leading architects of Mumbai, the estate is a 17-hectare (appx. 42 acres) plot, beautifully landscaped with lawns, trees, shrubbery and flowers. The coverage of greens is about 18 acres. It has 1536 residential flats/duplex/penthouses, in 46 towers of 13-floor high and 20 shops with a total built-up area of **1,69,542 M²**, including Club and other service area. Each apartment enjoys privacy and an unobstructed incomparable view of the sea and mountains.

A sea facing rotunda with a fountain and a promenade with an avenue of trees along the seafront allow the residents to enjoy the cool evening breeze, while the children romp around in the many playgrounds and recreation areas. The Clubhouse with its unique Spanish Villa architecture is centred on a sapphire blue Swimming Pool and a lush green lawn. Clubhouse is well equipped with Squash, Badminton, Tennis Courts as well as a Pool Table, Table Tennis, Carom & Chess Playing Facilities. It has a Health Club complete with a Fitness Centre (Gym) equipped with world class imported equipment.

Apart from the above facilities, it is adjoined with kids play garden and a skating rink. It has a Restaurant and facilities for exhibitions, celebrations and get-together. The Complex also has a basketball and volleyball court.

A Shopping Arcade fronts the Estate and the prestigious Delhi Public School is situated on the adjacent plot. The Estate is only a few minutes' drive from Seawoods Dharave (2 Km), Belapur (4 Km) and Nerul (5 Km) Railway stations. The Belapur Central Business District is only a short distance away. Vashi Railway Station is 10 Km away and is connected by the six-lane dual carriage motorway, called Palm Beach Marg.

SEL management has laid down the following set of House Rules to be applicable for all the residents including corporate members and tenants staying in the premises of SEL, with the objectives of making this complex safe, clean and green. The rules are therefore

intended to be for the benefit of all the residents and to ensure that they live together as a family in a good ambience.

This code of conduct defines the level of adjustment required on the part of everyone. **While this code of conduct is mandatory for all the residents, they should accept the underlying values and follow these practices willingly, in the spirit of community living.**

(A) Do's

- Immediately on noticing the fire, shout 'Fire Fire' at top of your voice and try to attract others' attention on your way to the scene of fire;
- Try to put-off the fire with the nearest appropriate type of Fire Extinguishers. ABC type fire extinguisher for general fire and CO₂ fire extinguisher for electrical fire. So long as the pressure indicator is on green, the fire extinguisher is in good working condition. Expiry date is renewed after periodical inspection.
- Acquaint yourself with the layout of the escape routes, staircases, refuge areas and the location of fire alarms.
- Familiarise yourself and family members with the use of different types of Fire Extinguishers installed in the buildings. Residents should also report to the Fire Officer if there is loss of pressure seen on the fire extinguishers on their floors.

- v) Always keep the doors leading to staircase closed. This is legal requirement.
- vi) To prevent use of lifts, they should be sent to the ground floor and switched off.
- vii) Participate in evacuation drills.
- viii) Irrespective of the magnitude of fire, summon the Fire Brigade at the earliest;
- ix) In case of fire, guide the Fire Brigade Department personnel to the location and extent of fire, information about trapped persons, if any, and provide any other information Fire Brigade may request.

(B) Don'ts

- v) Do not allow storages or obstructions in the common corridors and staircases. These exit routes should be kept always clear to help easy escape in case of fire;
- vi) Do not allow the Fire doors of the staircases to be kept open. These should always be kept closed. In case of fire, heat and smoke enters the staircases and prevents the escape of people;
- vii) In case of fire, do not use LIFTS for escape. They may fail midway trapping people inside;
- viii) Do not allow Electric Meter ducts to be used as storages, dumping places. They are potential fire hazards;
- ix) During Diwali Season, do not keep any combustibles in the balconies. Do not dry clothes in the balconies or outside the building line. Flying crackers can cause serious fires;

- xi) Never paint or coat fire detectors or sprinkler heads as they will become ineffective;
- xii) Do not re-enter the fire affected building to collect the valuables or for any other purpose. It may cost your life;
- xiii) Do not decorate walls and ceilings of common corridors with combustible material such as wooden panelling etc. They create unwarranted fire risk in the escape route in case of fire;
- xiv) Do not allow Fire-fighting tanks to be misused or remain empty. Do not block access to the tanks. These may be needed for use at any moment;
- xv) Avoid damage to wet riser system. It has been provided to extinguish/check spread of fire before arrival of Fire Brigade. It's good maintenance ensures public safety;
- xvi) Do not 'switch off' Fire/Smoke Detection System. This may lead to fire remaining unnoticed till it assumed large magnitude;
- xvii) Do not 'switch off' electricity of the entire building in the event of a fire. This will cause stoppage of all the fire protection and fire-fighting system installed in the building.

56. How to read Annual Reports and Budgets

Over the period of time the annual report has evolved both in line with the change in Companies Act whereby lot more information sharing and transparency is prescribed as also the consecutive Boards have included items that are both informative as also brings alignment on specific projects and priorities.

The gist of how to read and assimilate these is covered here. We have not covered majority of the statutory requirements, e.g. explanatory statement to the agendas as covered in Notice, the statistics to be given in board reports, the statutory cash flow to be attached with final accounts, auditors report etc. Our focus here is on specific items that have specific information for members which they may find useful.

Profit and Loss account and balance sheet

This needs a specific mention, as given the nature of SEL organization. The total receipts and expenses are bifurcated in two parts. Under the concept of mutuality whatever we collect from members and collectively spend for the member services including upkeep, renovation and maintenance of common amenities is not routed

through profit and loss account. These receipts and payments against the same are treated as liabilities or in other words, funds held on behalf of members and hence not routed through profit and loss account. You can see these receipts and payments against the same in a schedule to the balance sheet, which is generally numbered schedule xx and named '----'. The incomes which come from non-members like interest on fixed deposits, mobile tower rentals etc are taken to profit and loss account. Against these, the expenses incurred to earn these and the general corporate format related expenses including company secretary, internal auditor, statutory auditor payments etc are debited in the profit and loss account. These are also considered for the income tax liability and a provision is made for it.

Major projects report

Last few years, your Board has added this very useful report which gives the key aspects of the major projects executed. This gives an update to members and improves transparency.

Cash flows and budgets –

To most members this is the most useful summery, which brings together all fund flows at one place in a very simple, logical and comparable format. This has four major sections apart from the top summary:

Incomes,
Regular revenue expenses,
Major projects and
Purchase of fixed assets.

It also contains last 4 years actual along with current year i.e. the financial year under review, approved budgets compared to actuals. It has the running year and next two years projections. Three terms are used

Forecast,
BE i.e. Budgetary Estimates,
RE i.e. Revised Estimates compared to actuals.

In the annual report for 2016, there will be actual for the financial years ending 2012, 2013, 2014 & 2015, the last AGM approved budgets and the actual for the financial year ending 31/03/2016, Revised estimates for the running year i.e. 31/03/2017 as well as from the previous report the Budgetary estimates for the same year and the forecast budgets for the financial year ending 31/03/2018. On and from the annual report of 2016, this too now has a brief explanatory note attached to it, which makes it easier for the members to assimilate and understand the same and the variations as applicable.

This is for approval of the members and a resolution to this effect is always a part of the agenda.

The Board of Directors is empowered to incur the expenditure necessary to maintain the complex and recover the same from the members pro rata to the floor area of each flat. Companies Act or the Articles of Association does not place any restrictions and limits in this regard. However, considering the fact that all expenditure was met by the members' contributions, it was thought appropriate to consult them in advance before committing/ incurring any major expenditure. With this in view a budget is prepared for a three year period and placed before the members for their approval at every AGM.

57. AGM Notice, Voting and Nominations

Annual General Meeting

Normally AGM is held in September every year. It can be held on any day including Sunday but excluding National Holidays i.e. Republic Day, 26th January, Independence Day, 15th August and Gandhi Jayanti, 2nd October.

The day of sending the Notice and day of meeting is not counted. In case Notice is sent by courier, an additional two days is provided for service of Notice. SEL hold the proof of sending till next AGM. Non receipt of Notice by any member does not invalidate the proceedings of the meeting.

Agenda

AGM agenda has Ordinary Business that transact (a) consideration of financial statements and reports of Board of Directors and Statutory auditors, (b) appointment of directors in place of retiring directors, and (c) appointment of auditors and fixing their remuneration. Special Business means business other than Ordinary business.

No items of business other than

those specified in the Notice can be taken at the AGM. Every resolution is proposed by a member and seconded by another member.

Proxy

A proxy can act on behalf of members not exceeding 50 members. Undated or unstamped or under stamped proxies or proxies upon which the stamps have not been cancelled are invalid. If any member has given multiple proxies for the same holding, the proxy which is dated last is considered valid; if they bear the same date without specific mention of time, all such proxies are treated as invalid. In case of joint membership, proxy can be signed by any member. Proxy form must be deposited 48 hours before the start of the AGM. When a member appoints a proxy and both the member and proxy attend the meeting, the proxy stands automatically revoked.

Voting

A member has voting rights in proportion to his share in the paid up equity capital of the SEL. Members can e-vote and if not e-voted, can vote by ballot at the AGM. Those who e-voted can attend but are prohibited to vote again at the AGM.

E-voting

SEL has engaged the services of Central Depository Services (I) Limited (CDSL) for providing e-voting facility to all its members. CDSL forwards the User ID and password to members direct by email or courier. The facility of e-voting remains open for at least 3 days and closes at 5 pm on the day preceding the date of AGM.
